

## PARTICIPANTS NEEDED WITH DYSLEXIA [£150 in total]

### FOR A STUDY INVESTIGATING BRAIN-COMPUTER INTERFACE INTERVENTIONS AND DYSLEXIA

- Are you a native English speaker, 18-40 years old, normal or corrected to normal vision and no hearing problems?
- Have you been diagnosed with a current or childhood diagnosis of **dyslexia**?
- Do you want to play a Brain-Computer Interface game once a day for around an hour over a course of 2 weeks (ten sessions in total) with the opportunity to earn **£150**?
- The game involves controlling a moving visual display with your brain!

Participants needed! If eligible, contact us. The study takes place at Craik-Marshall Building, Cambridge CB2 3DT. For details, email Xuanci Zheng at [xz449@cam.ac.uk](mailto:xz449@cam.ac.uk).
